Appendix D Alberta Exports to the U.S. by State, Excluding Oil/Gas Commodities 105

Appendix E International Offices 106

Offices with Government of Alberta Representatives 107

ABOUT THE DATA

This publication provides a data source for Alberta's international trade, and is intended to provide businesses with information on current export markets.

A profile is included for each country that imported over $20 million worth of Alberta's goods in 2006. Each profile lists the top commodities Alberta exported to that country and compares these to Canadian exports. A summary of export totals to all countries is included in Appendix A.

The trade good nomenclature used is the Harmonized Commodity Description and Coding System (Harmonized System or HS), adopted by Statistics Canada in 1988 and updated in 1998.

Exports by geographic region, industry, and commodity are also provided in the following sections. Industry groupings are based on Statistics Canada's concordance table between export commodity and industry classifications.

For the purposes of this publication, six-digit HS codes are presented in the country profile tables. For simplicity, some commodity descriptions accompanying these codes have been revised from their standard format. Readers requiring the exact content of a particular HS number are referred to the Statistics Canada's publication "The Canadian Export Classification 2007" (Catalogue no. 65-209-XIE).

Statistics Canada is the main source of information for the publication. Estimates for service exports are developed by Alberta Employment, Immigration and Industry and are based on special surveys conducted by Statistics Canada. The informational captions appearing at the top right corner of each country profile are from *World Factbook 2007*. The term GDP at PPP in the captions refers to Gross Domestic Product at Purchasing Power Parity, and "nes" in the country profiles refers to "not elsewhere specified."

The term "exports" refers to "domestic exports," goods grown, extracted or manufactured in Canada. The term includes goods of foreign origin, which have been materially transformed in Canada and then re-exported.

Unfortunately, service exports cannot be included on a country specific basis since these data are not presently available. However, these exports have been provided in the "Year in Review" section. Throughout the remainder of this document, "exports" will refer strictly to merchandise exports.

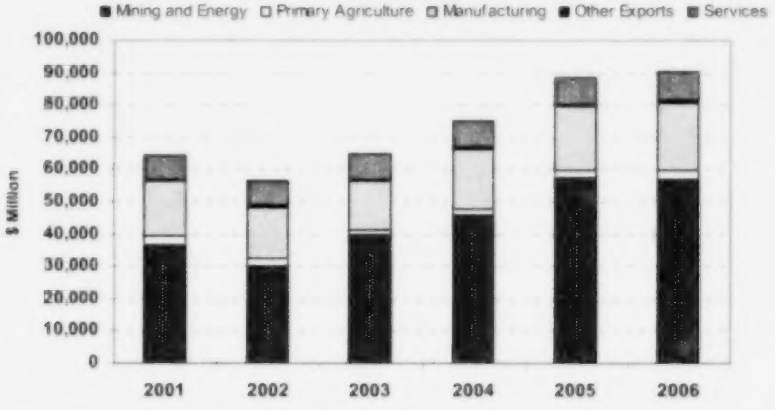
THE YEAR IN REVIEW

Alberta exported $90.1 billion worth of goods and services to 189 countries in 2006, an increase of 2.1% from 2005's total of $88.2 billion. This total was comprised of $81.3 billion in commodity exports and $8.8 billion in service exports. Canadian exports of goods and services increased 0.5% in 2006.

Alberta's international exports rise 2.1% in 2006

Alberta Exports of Goods and Services
2001-2006

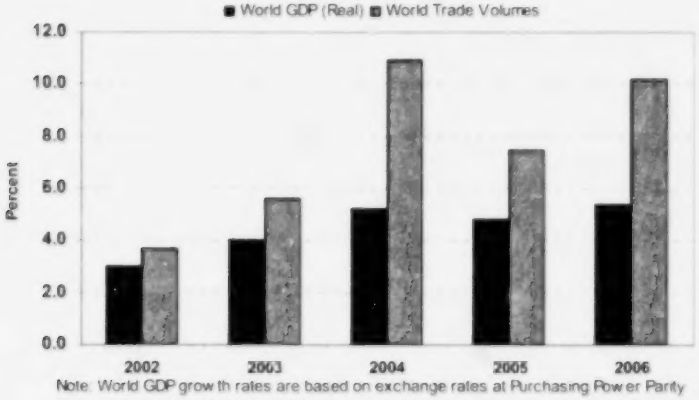


Sources: Statistics Canada and Alberta Employment, Immigration and Industry

Goods Exports

Commodity exports increased by 1.4% from $80.2 billion in 2005 to $81.3 billion in 2006. Alberta's largest export markets were the U.S., China and Japan. The U.S. imported $72.3 billion worth of goods, followed by China at $2.2 billion and Japan at $1.3 billion.

Growth in World GDP and World Trade Volumes
2002-2006



Note: World GDP growth rates are based on exchange rates at Purchasing Power Parity
Source: Economist Intelligence Unit

The moderation in Alberta's export growth was driven mainly by the weakening of the energy sector resulting from a pullback of natural gas prices from the historic highs registered in 2005. Exports of mining and energy products, declined by $777 million in 2006, a net result of a $7.4 billion fall in natural gas exports and a gain of $6.6 billion in crude oil exports. Growth in the non-energy sectors bolstered export growth. Exports of crops and livestock posted a $984 million gain in export receipts while exports of chemicals and machinery combined for an $875 million gain.

In 2006, the global economy expanded by 5.4%, a 25-year high. The U.S. economy grew by 2.9% in 2006 and European Union (EU) by 3.0%. The Asian economy continued its robust growth with a 7.0% expansion in 2006. China and India led the region with respective economic growth rates of 11.1% and 9.4%. World trade in goods and services remained strong in 2006, with world trade volumes growing by 10.2%, well above the 10-year average of about 8.0%.

North America, Asia and Europe remained the key regional markets for Alberta in 2006. North America (mostly the U.S. and Mexico) accounted for 89.7% of total commodity exports, Asia for 6.3% and Europe for 1.6%. Exports to all regions were higher in 2006 than in 2005. Exports to North America increased by 0.5% to $72.6 billion, to Asia by 7.4% to $5.2 billion, and to Europe by 4.8% to $1.3 billion. The region with the fastest growth was the Middle East and North Africa: exports to that region rose 40.7% to $672 million.

Commodity exports can be classified into three sectors: mining and energy, primary agriculture, and manufacturing. The mining and energy sector accounted for the majority of exports at $57.0 billion, followed by the manufacturing sector at $20.5 billion and primary agriculture at $3.1 billion. Exports in the manufacturing and primary agriculture sectors, increased by 4.1% and 46.3% respectively, while mining and energy exports declined by 1.4%.

Service Exports

Service exports in 2006 reached an estimated $8.8 billion, an increase of 8.9% from 2005. Service exports include international travel and tourism receipts, transportation services and commercial services.

Unlike commodity exports, services cannot be included on a country specific basis. Therefore, unless otherwise specified, the term "export" in the remainder of this publication will refer strictly to commodities.

Market Influences

Some of the factors that influenced Alberta's 2006 trade include:

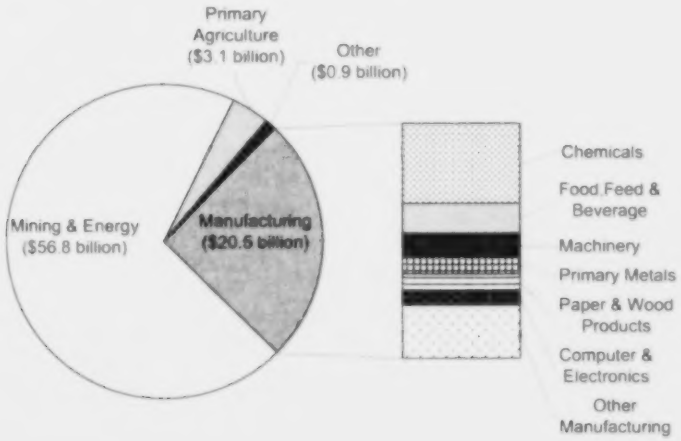
- mild weather conditions leading to the build up of natural gas inventories and lower gas prices;
- solid commodity prices;
- robust world economy and world trade;
- continued growth in China, India and other Asian countries;
- acceleration of growth in Europe and Japan;
- strong Canadian and EURO currencies and continued U.S. dollar weakness;
- downturn in the U.S. housing market; and
- the full year effect of the lifting of the U.S. ban on live cattle shipments under 30 months of age.

ALBERTA EXPORTS BY INDUSTRY

Export growth moderates as natural gas prices fall

In 2006, the value of Alberta's goods exports increased by 1.4% to reach a record $81.3 billion. Weak natural gas prices arising from benign weather conditions led to the moderation of overall export growth in 2006. Export volumes rose by 4.0% as the global economy continued its strength. However, export prices for natural gas declined by 21.8% from 2005, muting the overall volume gains in exports.

Alberta Exports by Industry
2006



The mining and energy sector accounted for 63.0% of Alberta's merchandise exports in 2006, bringing in $56.8 billion in export revenue. This consisted primarily of *crude petroleum* and *gas and natural gas liquids* at $31.2 billion and $24.8 billion, respectively. Mining and energy exports declined marginally by 1.4% from 2005 due to lower prices for natural gas. Strong growth in crude petroleum exports, driven by an 18.8% price rise and an 8.2% volume increase, mitigated the negative impact of lower natural gas exports.

The manufacturing sector, the second largest export sector, contributed $20.5 billion in exports, an increase of 4.1% from 2005. Continued strength of the world economy and healthy global trade volumes pushed volumes and prices up for many manufactured products. The increase in the value of manufacturing exports was mainly volume-driven. For the fourth consecutive year, exports of *chemicals* led all manufacturing exports with an increase of $456 million (or 6.9%). Notable increases were also registered by *primary metal products* and *machinery* which increased by $425 million (or 39.1%) and $419 million (or 25.9%), respectively. After five consecutive years of declines, exports of *computer and electronic products* registered an upturn with an increase of $157 million (or 13.5%).

Primary agricultural exports increased by 46.5% from 2005 to reach $3.1 billion in 2006. As a result of higher cattle shipments from Alberta, *livestock* receipts rose by $417 million, doubling the 2005 level of $397 million to $814 million. Volume-driven gains in wheat and canola, supported by strong world prices for these commodities, led to a $567 million (or 32.9%) increase in *crops* exports.

Alberta Exports by Industry - 2001 to 2006
($ Millions)

Industry	2001	2002	2003	2004	2005	2006

1. For 2001, the Alberta figures have been adjusted to include other provinces' Ethylene Glycol exports erroneously allocated to other provinces by Statistics Canada. Provincial data from 2002 on have all been allocated to Alberta by Statistics Canada.
2. Estimate

Agriculture, Food and Beverages

Strong global demand leads to solid growth in agricultural exports

Exports of primary agricultural products and food and beverages increased by 8.9% from 2005 to $5.7 billion in 2006. The full-year effect of the re-opening of the U.S border to live cattle led to a 155.4% increase in live cattle exports to $697 million. Supplementing the strong showing of live cattle exports is the healthy growth in several agricultural exports. Wheat exports rose by $347 million (up 41.7%) and oil seeds by $181 million (up 34.1%). Other agricultural exports that posted double digit growth rates were peas and beans (up 26.1%), malt and flour milling (up 16.7%), and vegetable fats and oils (up 10.5%). The strong growth in these agricultural exports more than compensated for the $508 million decline in beef product exports due to a 26.0% fall in volumes and a 12.9% decline in prices.

Alberta's Major Agricultural Exports
(including Food and Beverage Manufacturing)

	2005 ($'000)	2006 ($'000)	Percent Change
Wheat, including durum wheat	833,391	1,180,657	41.7%
Beef products	1,430,608	922,383	-35.5%
Oil seeds (canola, mustard seed, flaxseed)	531,555	712,991	34.1%
Cattle, live (includes bison)	272,956	697,173	155.4%
Vegetable fats and oils (e.g. canola oil and cake)	413,986	457,568	10.5%
Pork products	477,052	432,127	-9.4%
Frozen foods	218,537	235,581	7.8%
Raw hides and skins	197,352	160,111	-18.9%
Other grains (barley, oats)	157,324	154,524	-1.8%
Malt and flour milling	123,566	144,200	16.7%
Forage products (hay, alfalfa)	96,868	105,998	9.4%
Peas and beans	52,488	66,185	26.1%
Live swine	68,928	55,656	-19.3%
TOTAL ABOVE	**4,874,609**	**5,325,152**	**9.2%**
TOTAL AGRICULTURE, FOOD AND BEVERAGES	**5,279,536**	**5,747,634**	**8.9%**

Exports of wheat, including durum wheat, rose by 41.7% to $1.2 billion due to higher volumes and prices. The severe drought in Australia, the world's third largest exporter of wheat, resulted in low global inventories and higher demand for Alberta wheat. The largest gains in Alberta wheat exports were posted by Indonesia (up 71.9% to $100 million), Mexico (up 80.0% to $87 million) and Sri Lanka (up 121.7% to $80 million).

Strong global demand for vegetable oil and biofuels resulted in a 34.1% increase in the exports of oil seeds to $713 million in 2006. The increase was mainly volume-driven with large gains in canola exports to Mexico (up 5.9% to $134 million) and the U.S. (up 59.4% to $ 87 million).

The U.S. accounted for 44.8% of agricultural exports at $2.6 billion, mostly in the form of live cattle, $697 million, beef products, $643 million, and frozen potato products, $141 million. Other major agricultural markets were Japan (canola, pork, and frozen potatoes), Mexico (canola, beef, potatoes and pork), and China (canola and barley) at $775 million, $396 million and $230 million, respectively.

Mining and Energy

Natural gas inventory build-up weakens energy exports

The value of mining and energy exports edged down by 1.4% to $56.8 billion in 2006. The sector benefited from the continuing strength in global demand for crude petroleum but mild weather conditions, growth in natural gas production in the U.S. and above average gas inventories resulted in a 24.3% decline in gas exports.

Crude petroleum, which accounted for 55.0% of total energy exports increased by 27.0% to $31.2 billion, a combined result of higher prices (up 17.3%) and volumes (up 8.2%). The U.S. was the sole destination of Alberta's crude petroleum exports.

Natural gas exports, which comprised 40.9% of Alberta's mining and energy exports, declined by $7.5 billion due to lower prices (down 21.8%) and volumes (down 3.2%). All of the province's natural gas exports were shipped to the U.S.

Liquefied petroleum gases posted gains in 2006, increasing shipments by $24 million (up 1.6%). This was a result of strong growth in liquefied propane gas exports with a volume-driven increase of $106 million (up 8.3%) to the U.S., the sole importer of liquefied propane gas.

Sulphur exports went down by 10.8% to $390 million, a result of lower prices (down 17.9%). An increase in volume demand (up 8.6%) was posted in 2006 but this was not enough to offset the negative impacts of weak sulphur prices. China remained Alberta's largest sulphur market, accounting for 55.6% of total sulphur exports with a value of $217 million. Other large markets were the U.S., $41 million, Australia, $31 million, Brazil, $31 million and Cuba, $20 million.

The value of coal exports continued its climb in 2006, rising 58.7% to $320 million. Coal prices went down by 11.6% but a healthy volume growth of 81.3% more than compensated for the price weakness. The major coal market was Japan, $120 million, followed by the U.S., $111 million, South Korea, $48 million and Chile, $18 million.

Alberta's Major Mining and Energy Exports

	2005 ($'000)	2006 ($'000)	Percent Change
Crude petroleum	24,584,872	31,214,966	27.0%
Natural gas	30,667,522	23,211,296	-24.3%
Petroleum gases	1,531,608	1,555,560	1.6%
Propane, liquefied	1,265,676	1,371,231	8.3%
Butanes, liquefied	235,558	156,160	-33.7%
Other, liquefied	30,375	28,169	-7.3%
Sulphur	437,130	389,977	-10.8%
Coal	201,342	319,556	58.7%
TOTAL ABOVE	**57,422,475**	**56,691,354**	**-1.3%**
TOTAL MINING AND ENERGY	**57,537,382**	**56,760,445**	**-1.4%**

Manufacturing

Manufacturing exports climb for third straight year

Between 2005 and 2006, manufacturing exports rose by 4.1% to $20.5 billion. Robust global economic growth continued to support the manufacturing sector with large increases in value noted for synthetic resins, non-ferrous metals, petro-chemicals, refined petroleum products, and pumps and compressors. These five product groups have a combined increase of $1.2 billion, more than enough to compensate for the considerable declines in exports of beef products, engineered wood products and organic chemicals. Export volumes grew an estimated 4.6% in 2006.

The manufacturing sector accounted for one-quarter of all commodity exports in 2006. Of the 15 industries that comprise this sector, nine increased their export values from 2005. The industries with the largest gains were *chemicals* (up $456 million or 6.9%), *primary metals* (up $425 million or 39.1%), *machinery* (up $419 million or 25.9%), *refined petroleum and coal products* (up $168 million or 17.4%), and *fabricated metals* (up $108 million or 22.0%). For the first time in five years, exports of *computer and electronic products* reversed the downtrend of recent years by increasing 13.5% to $1.3 billion.

The *chemical* industry remained Alberta's largest manufacturing sub-sector with exports of $7.1 billion, followed by *food, feed and beverages* with $2.6 billion. The other sub-sectors with exports in excess of $1 billion were *machinery*, $2.0 billion, *primary metals*, $1.5 billion, *paper products and woodpulp*, $1.4 billion, *computer and electronic products*, $1.3 billion, *wood products*, $1.2 billion and *refined petroleum and coal products*, $1.1 billion.

Alberta's Manufacturing Exports by Industry

	2005 ($'000)	2006 ($'000)	Percent Change
Chemicals	6,617,806	7,073,508	6.9%
Computer and Electronic Products	1,163,833	1,320,399	13.5%
Electrical Equipment, Appliances and Components	255,458	235,674	-7.7%
Fabricated Metal Products	489,898	597,625	22.0%
Food, Feed, Beverages	3,160,526	2,644,273	-16.3%
Furniture and Related Products	225,453	214,777	-4.7%
Machinery	1,618,088	2,036,859	25.9%
Non-Metallic Mineral Products	166,419	140,217	-15.7%
Paper Products and Wood Pulp	1,388,013	1,415,725	2.0%
Plastics and Rubber Products	238,949	212,165	-11.2%
Primary Metal Products	1,088,284	1,513,682	39.1%
Refined Petroleum and Coal Products	963,170	1,130,771	17.4%
Transportation Equipment	515,279	563,536	9.4%
Wood Products	1,680,287	1,245,067	-25.9%
Other Manufacturing	173,666	203,777	17.3%
TOTAL MANUFACTURING	**19,745,127**	**20,548,053**	**4.1%**

Alberta's major manufactured commodity exports posted a net increase from 2005 to 2006, but sector performance varied across the major commodity groups.

The major commodity groups with the biggest gains were:

- synthetic resins, up $486 million due to higher volumes and prices;
- non-ferrous metals, up $288 million arising from strong nickel prices and higher volumes;
- petro-chemicals, up $185 million because of price and volume increases;
- refined petroleum products, up $164 million due to increased prices and volumes; and
- pumps and compressors, up $116 million due to higher volumes.

The top manufacturing exports in 2006, with exports of at least $1 billion each, were synthetic resins (such as polyethylene), organic chemicals (such as ethylene glycol), wood pulp, refined petroleum and petro-chemicals. Collectively, these accounted for 40.4% of all manufacturing exports.

The manufactured commodities with the strongest growth in 2006 compared to the previous year were:

- ethylene polymers, up $288 million or 19.2%;
- nickel, up $261 million or 49.6%;
- polyethylene, up $217 million or 18.7%;
- oil pipeline, up $96 million or 77.1% and
- petroleum oils (e.g. diesel oil),up $91 million or 15.4%.

The U.S. was the destination of 83.2% of ethylene polymers exports and 90.6% of polyethylene exports. The U.S. was also the main destination of overall manufacturing exports, accounting for 69.3% of shipments. A total of $14.2 billion of manufactured commodities was imported by the U.S. in 2006, an increase of $467 million or 3.4% from 2005. The increase was a combined result of export gains in *chemicals* (up $469 million or 9.5%), *machinery* (up $298 million or 31.4%), *petroleum and coal products* (up $178 million or 20.6%), *primary metals* (up $138 million or 40.0%) and *paper products and wood pulp* (up $113 million or 14.9). The growth was muted by declines in *wood products* (down $421 million or 26.1%) and *food, feed and beverages* (down $410 million or 21.9%). The top three exports from Alberta to the U.S. were *chemicals*, $5.4 billion, *food, feed and beverages*, $1.5 billion, and *machinery*, $1.2 billion.

Next to the U.S., the Asian markets of China, Japan, South Korea, Taiwan, Singapore and Hong Kong were collectively the largest importers of manufactured products from Alberta.

- China, the second largest market for Alberta manufacturing exports, imported $1.8 billion worth of manufactured goods from Alberta; the 17.7% increase in exports was driven by a substantial increase in nickel exports (up $246 million), ethylene polymers (up $29 million) and cellulose acetates (up $36 million).
- Japan was the third biggest destination of manufactured goods exports with a total value of $708 million. Japan was the main destination for frozen pork, $111 million or 56.3% of total frozen pork shipments.
- South Korea, the fifth biggest market, imported $336 million, comprised mainly of chemical wood pulp, $107 million, ethylene glycol, $59 million, and nickel, $38 million.
- Taiwan imported $173 million worth of manufactured goods from Alberta, with ethylene polymers, $26 million, polyethylene,$15 million, and nickel, $15 million, as the major imports.
- Singapore imported manufactured goods valued at $150 million, a significant portion of which was made up of *primary metal products* such as nickel, $ 46 million, and cobalt, $21 million.
- Hong Kong imported $109 million worth of manufactured goods from Alberta. Ethylene glycol, $18 million and ethylene polymers, $7 million, were the leading imports.

In 2006, Alberta's top manufacturing exports to Asia were ethylene glycol, $971 million, nickel, $445 million, and chemical wood pulp, $267 million.

Mexico was the fourth largest destination of manufacturing exports in 2006, with a total value of $368 million. This was 10.6% higher than 2005's value because of strong gains in polyethylene (up 58.5% to $72 million), ethylene polymers (up 126.7% to $46 million) and semi-chemical wood pulp (up 589.7% to $10 million).

Alberta's largest European Union markets for manufactured goods were the Netherlands, $285 million, the United Kingdom, $187 million, Germany, $141 million, Belgium, $131 million, Italy, $79 million, and France, $75 million. Alberta's main exports to the European Union were nickel, $327 million, turbo-propellers, $52 million, and cobalt, $49 million.

Other significant markets for manufactured goods were Russia, $134 million and Australia, $126 million. The biggest manufacturing exports to Russia were machinery (mainly for boring and sinking) and to Australia, machinery. Smaller markets with significant import gains for manufactured goods included Cuba (up 59.5% to $72 million), India (up 159.6% to $35 million) and Thailand (up 163.7% to $34 million).

Alberta's Major Manufacturing Exports

	2005 ($'000)	2006 ($'000)	Percent Change

Forestry (including Wood, Paper and Allied Products)

Weak U.S. housing market pulls down forestry exports

In 2006, Alberta exported $2.7 billion worth of forest products. This was a 13.3% fall from 2005. The weak performance of forestry products was a result of the U.S. housing market slump, the higher Canadian dollar and increased global competition. The largest decline was posted by oriented strandboard (OSB) exports (down $257 million or 34.6%) as volumes fell 8.7% and prices plummeted by 28.3%. Lumber exports registered a large decrease (down $122 million or 19.9%), driven both by price (down 11.7%) and volume (down 9.3%) changes.

Products which recorded gains were wood pulp (up $19 million or 1.6%), prefabricated buildings (up $8 million or 10.6%) and newsprint (up $6 million or 4.8%).

Alberta's Major Forestry Exports
(Includes Wood, Paper, and Allied Products)

	2005 ($'000)	2006 ($'000)	Percent Change
Wood Pulp	1,198,223	1,217,454	1.6%
Lumber	612,533	490,687	-19.9%
Oriented strandboard and waferboard	742,557	485,647	-34.6%
Newsprint	123,781	129,715	4.8%
Prefabricated buildings (mostly wood)	78,861	87,239	10.6%
Fibreboard	56,372	56,127	-0.4%
Builders' joinery and carpentry	44,749	28,821	-35.6%
Plywood	45,786	26,092	-43.0%
TOTAL ABOVE	**2,902,860**	**2,521,781**	**-13.1%**
TOTAL ALL FORESTRY	**3,072,494**	**2,664,579**	**-13.3%**

Wood pulp exports comprised nearly one-half of Alberta's forest product exports. The primary markets for wood pulp were the U.S. ($675 million), Japan ($153 million), South Korea ($120 million) and China ($108 million). Wood pulp exports to the U.S. increased by $106 million (or 18.7%) and to China by $4 million (or 3.8%). Exports to South Korea declined by $33 million (or 21.7%) and to Japan, by $3 million (or 1.7%).

The U.S. was the major destination of lumber exports, accounting for 94.6% of total lumber deliveries in 2006. The Japanese market was a remote second with a 4.8% market share. The weakening of the U.S. housing market primarily drove the 19.9% decrease in total lumber exports. Lumber exports to the U.S. fell by $101 million (or 17.9%) in 2006.

In 2006, the U.S. was the sole destination of OSB exports. As in the case of lumber exports, the U.S. housing market weakness led to the $257 million (or 34.6%) decline in OSB exports.

Major markets for forestry products were the U.S., $2.1 billion, Japan, $178 million, South Korea, $124 million, and China, $111 million.

Chemicals

Synthetic resins drive increase in chemical exports

Exports of chemical products climbed for a fourth straight year, rising by 6.9% from 2005 to $7.1 billion in 2006. Volume and price increases driven by strong global demand for chemicals were behind this growth. The largest gains were noted for ethylene polymers (up $288 or 19.2%), polyethylene (up $217 million or 18.7%), and unsaturated acyclic hydrocarbons (up $163 million or 133.6%).

Alberta's Major Chemical Exports

	2005 ($'000)	2006 ($'000)	Percent Change
Polymers of ethylene, nes	1,498,985	1,787,168	19.2%
Polyethylene	1,161,484	1,378,802	18.7%
Ethylene glycol	1,194,491	1,069,999	-10.4%
Styrene	499,021	479,139	-4.0%
Anhydrous ammonia	355,785	355,845	0.0%
Urea	369,399	337,675	-8.6%
Acyclic hydrocarbons, saturated	255,593	296,790	16.1%
Acyclic hydrocarbons, unsaturated	122,050	285,057	133.6%
Methanol	127,278	122,224	-4.0%
Ethylene-vinyl acetate copolymers	130,602	111,016	-15.0%
Diethylene glycol	91,425	87,694	-4.1%
Cellulose acetates, nonplasticized	49,214	85,327	73.4%
TOTAL ABOVE	**5,855,328**	**6,396,736**	**9.2%**
TOTAL ALL CHEMICALS	**6,617,806**	**7,073,508**	**6.9%**

Ethylene polymers, Alberta's largest chemical exports, are mainly exported to the U.S. The U.S. accounted for 83.2% of total shipments at $1.5 billion, with China importing $137 million for a 7.7% share. The increase in ethylene polymer exports was driven by a 17.1% rise in volumes and a 1.8% increase in prices. Other importers of ethylene polymers were Mexico, $46 million, Taiwan, $26 million, and Malaysia, $14 million.

Polyethylene exports totalled $1.4 billion in 2006. Of this, 90.6% was shipped to the U.S. Mexico and China were the next largest markets with polyethylene exports valued at $54 million and $33 million, respectively. The increase in polyethylene exports was the result of increased volumes (up 14.9%) and higher prices (up 1.7%).

In 2006, China remained the largest market for ethylene glycol with shipments of $844 million and a 79.2% share in total exports. Other major markets for ethylene glycol were the U.S. and South Korea which imported $83 million and $59 million, respectively. Prices for ethylene glycol declined by 13.9% but volume increases of 4.1% partially offset the impact of price weakness.

The U.S. accounted for 76.2% of total chemical shipments at $5.4 billion. Other major markets were China, $1.1 billion, Mexico, $131 million, South Korea, $67 million, Taiwan, $54 million and Japan, $46 million.

Machinery

Booming global energy industry pushes machinery exports higher

Exports of machinery climbed 25.9% to $2.0 billion as global demand remained strong in 2006. The largest export gains were from exports of pumps and compressors (up $116 million or 39.2%), oil and gas field machinery (up $100 million or 19.3%), construction machinery (up $67 million or 106.8%), and other industrial machinery (up $62 million or 28.8%).

Alberta's Major Machinery Exports

	2005 ($'000)	2006 ($'000)	Percent Change
Oil and gas field machinery	518,742	618,849	19.3%
Parts for boring or sinking machinery	*228,945*	*294,946*	*28.8%*
Boring and sinking machinery	*160,220*	*238,450*	*48.8%*

Other machinery for agric., forestry, etc.	*13,389*	*11,406*	*-14.8%*
TOTAL ABOVE	**1,510,432**	**1,911,761**	**26.6%**
TOTAL ALL MACHINERY	**1,618,088**	**2,036,859**	**25.9%**

Alberta's major machinery exports were oil and gas field machinery, $619 million, pumps and compressors, $410 million and other industrial machinery, $278 million. The main destination of machinery exports was the U.S. which accounted for $1.2 billion (or 61.2%) of total machinery exports. Other major markets included Algeria, $53 million, Russia, $52 million, Australia, $51 million and China, $40 million.

The U.S. was also the main destination of boring and sinking machinery, accounting for 60.0% of total export shipments. Strong demand led to a $109 million (or 52.5%) increase in exports to the U.S. market. Other countries with significant gains in boring and sinking machinery exports were Algeria (up $25 million), Russia (up $14 million), Brunei (up $13 million) and United Arab Emirates (up $9 million).

Computer and Electronic Products

High Tech exports recover from 5-year slump

Exports of computer and electronic products posted a gain in 2006 after losing ground in the preceding five years. Export shipments of computer and electronic products increased by 13.5% to $1.3 billion in 2006. The largest gains were in measuring and controlling instruments which went up $105 million (or 26.4%) and telephone apparatus which increased $39 million (or 10.4%).

Alberta's Major Computer and Electronic Product Exports

	2005 ($'000)	2006 ($'000)	Percent Change
Measuring and controlling instruments	396,730	501,557	26.4%
Surveying instruments/appliances and parts	*103,505*	*130,888*	*26.5%*
Gas or smoke apparatus	*70,744*	*93,913*	*32.7%*
Telephone apparatus	374,574	413,481	10.4%
Transmission apparatus	*184,539*	*224,753*	*21.8%*
Parts	*83,239*	*118,107*	*41.9%*
Switching apparatus	*56,756*	*28,435*	*-49.9%*
Wireless communication and radio/TV broadcast equipment	221,530	191,163	-13.7%
Parts for transmission, radar/radio and reception apparatus	*185,532*	*119,452*	*-35.6%*
Computers and peripheral equipment	67,507	93,293	38.2%
Digital Processing Units	*13,371*	*20,977*	*56.9%*
Automatic Data Processing Input or Output Units	*10,950*	*19,508*	*78.2%*
TOTAL ABOVE	**1,060,341**	**1,199,494**	**13.1%**
TOTAL ALL COMPUTER AND ELECTRONIC PRODUCTS	**1,163,833**	**1,320,399**	**13.5%**

The U.S. accounted for 87.7% of Alberta's exports of transmission apparatus. In 2006, the U.S. increased its imports of this commodity by 30.4% or by $46 million. Other major markets included Trinidad and Tobago, $8 million, Singapore, $5 million, and Nigeria, $4 million.

Two-thirds of surveying, hydrographic, oceanographic, meteorological, and geophysical instruments went to the U.S. Healthy demand for this group of instruments led to the U.S. importing 31.3% more than it did in 2005 to $88 million in 2006. Major markets for these instruments also included China, $15 million, Brazil, $6 million, India $4 million, and Russia, $4 million.

Exports of parts for telephone apparatus posted strong gains in 2006. The U.S., which accounted for 65.2% of these exports, increased its imports from Alberta by 24.1% to $77 million. Other major importers were India, $8 million, Singapore, $7 million, Mexico, $5 million, and United Kingdom, $5 million.

The U.S. accounted for $866 million (or 65.6%) of all computer and electronics exports in 2006. Other major destinations included the United Kingdom, $65 million, China, $43 million, India, $32 million, and Singapore, $30 million.

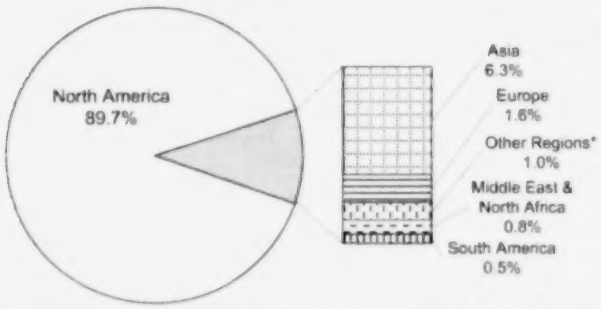
ALBERTA EXPORTS BY REGION

International export growth was broad based with all regions seeing increases in 2006

North America was Alberta's largest international export market in 2006, accounting for $72.9 billion or 89.7% of total shipments. Excluding oil and gas commodities primarily destined for the United States, North America made up two-thirds of Alberta's exports. Exclude commodities include crude oil, natural gas, propane, butane and other natural gas liquids

Asia was Alberta's second largest regional market, capturing 6.3% of Alberta's total exports, followed by Europe at 1.6% and the Middle East and North Africa (MENA) at 0.8%.

Alberta's Exports by Region
Total: $81.3 Billion



*Other Regions include Oceania, Central America, Commonwealth of Independent States, and Sub-Saharan Africa

Trade increased to all nine of Alberta's international export regions. In 2006, the highest growth rates were registered for the MENA and the Commonwealth of Independent States (CIS). In terms of value, the largest advances were noted for North America and Asia.

Alberta's Exports by Region

	2005 ($'000)	% of Total	2006 ($'000)	% of Total	% Change 2005/2006
North America	72,561,158	90.5	72,904,321	89.7	0.5
Asia	4,797,541	6.0	5,150,953	6.3	7.4
Europe	1,260,783	1.6	1,321,388	1.6	4.8
Middle East & North Africa	477,400	0.6	671,671	0.8	40.7
South America	338,747	0.4	404,699	0.5	19.5
Central America	211,584	0.3	226,614	0.3	7.1
Commonwealth of Independent States	176,488	0.2	216,974	0.3	22.9
Oceania	193,318	0.2	208,892	0.3	8.1
Sub-Saharan Africa	163,796	0.2	191,613	0.2	17.0
TOTAL	**80,180,814**	**100.0**	**81,297,125**	**100.0**	**1.4**

Exports to North America rose by 0.5% because of higher deliveries of crude oil, live cattle, ethylene polymers, polyethylene, acyclic hydrocarbons and refined petroleum. Excluding North America, exports grew by 10.1% due to increased shipments of wheat, nickel, canola, ethylene polymers and coal.

Asian imports of Alberta merchandise rose by 7.4% due to increased nickel, canola, coal, ethylene polymer and wheat deliveries. Sales to China were 7.8% higher because of higher shipments of nickel, ethylene polymers and cellulose acetates. Japanese imports fell by 4.0% due to lower pork, lumber and ethylene dichloride deliveries.

Sharply higher trade was noted for the India, Pakistan, Sri Lanka, United Arab Emirates (UAE) and Brazil. At the same time, large decreases were noted for Belgium, Italy and South Korea.

North America

Crude oil overtakes natural gas as the top export to North America for the first time since 1997

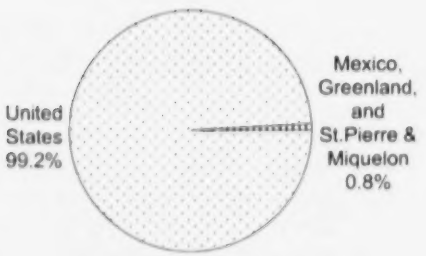
North America, excluding the rest of Canada, is Alberta's largest trade area and accounts for the vast majority of all goods exported. In 2006, merchandise exports to the region increased by 0.5% from 2005, to $72.9 billion.

Alberta's Exports to North America

	2002 ($'000)	2003 ($'000)	2004 ($'000)	2005 ($'000)	2006 ($'000)
United States	43,005,274	51,151,654	59,060,429	72,031,584	72,286,819
Mexico	447,345	379,570	698,243	528,770	613,321
Greenland	694	1,502	643	792	4,174
St. Pierre and Miquelon	0	0	12	12	7
TOTAL	**43,453,313**	**51,532,726**	**59,759,326**	**72,561,158**	**72,904,321**

The U.S. accounted for 99.2% of Alberta exports to North America, with the remaining balance going to Mexico. Mining and energy commodities represented 76.8% of total sales to the region, with crude oil and natural gas making up the bulk of these shipments. In 2006, crude oil overtook natural gas as Alberta's top export for the first time since 1997. This was primarily due to lower export prices for natural gas.

Alberta's Exports to North America
Total: $72.9 Billion



The value of North American exports excluding oil and gas related commodities grew by 7.1% to $16.9 billion. The largest non-energy increases were noted for cattle, ethylene polymers, polyethylene, acyclic hydrocarbons and fuel oils (e.g. diesel).

United States of America

Manufacturing and agricultural exports offset lower energy shipments

The U.S. economy grew by 2.9% in 2006 fuelled by increased business investment, exports and consumer spending. At the same time, this was tempered by slowing residential construction and a weak auto sector that impacted employment growth.

The U.S. was Alberta's largest trading partner and accounted for 88.9% of the province's exports to the world. In 2006, sales to the U.S. grew marginally by 0.4% from 2005. Alberta's share of Canadian exports to the U.S. remained unchanged at 17.6% - the second largest provincial share behind Ontario.

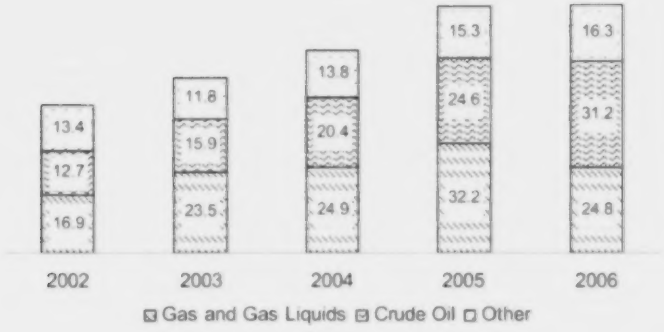
The mining and energy sector accounted for 77.7% of merchandise exports. In 2006, mining and energy shipments fell by 1.4% from the previous year. Crude oil and natural gas represented 98.6% of this sector's sales. Crude oil shipments increased sharply by 27.0% to $31.2 billion, but natural gas exports dropped by 24.3% to $23.2 billion.

In 2006, strong growth in crude oil prices was due in part to geopolitical concerns and rising global demand. Export prices received by Alberta for crude oil went up 17.3% from 2005. Natural gas prices declined by 21.8% from historically high levels in 2005 due to decreased demand and milder weather conditions in the U.S.. The drop in natural gas shipments was the chief reason for a 1.4% drop in mining and energy sector exports to the United States.

Crude oil was Alberta's largest export to the U.S., representing 43.2% of shipments in 2006, while natural gas accounted for 32.1% of sales. This was the first time since 1997 that natural gas was not Alberta's top export. The U.S. is Canada's largest crude oil export market and Alberta accounted for 82.3% of Canadian oil shipments. In 2006, crude oil became Canada's top export for the first time. Natural gas was Canada's third largest export and Alberta accounted for 86.0% of Canadian shipments.

Alberta's Exports to the U.S.

$ Billions



Excluding the mining and energy sector, U.S. bound exports were up 7.0% from 2005. Commodities with the highest export growth rates include cattle, acyclic hydrocarbons, oil and gas pipeline, drilling equipment and parts, wood pulp, fuel oils, coal and wheat.

Primary agricultural product exports jumped by 94.4% because of a sharp rise in crop shipments (up 65.3%) and livestock deliveries (up 109.5%). Live cattle accounted for 88.3% of livestock sales to the U.S. 2006 was the first full year that the U.S. has allowed imports of Canadian live cattle since 2002. Alberta farmers also benefited from improved prices and increased demand for grains and oilseeds.

In 2006, manufacturing exports rose by 3.4% from 2005. In terms of value, large sales increases were registered for:

- ethylene polymers, growing by $225 million to $1.5 billion as a result of improved volumes and prices;
- unsaturated acyclic hydrocarbons, advancing by $163 million to $285 million because of large price and volume increases;
- polyethylene, increasing by $159 million to $1.2 billion because of higher prices;
- fuel oils (e.g. diesel), climbing by $147 million to $475 million due to higher volume and prices; and
- oil and gas pipeline, increasing by $95 million to $220 million.

Over the same period, beef exports fell by $465 million to $721 million because of lower prices and volumes. Large declines were also noted for lumber, OSB, and telecom equipment parts.

Top U.S. Markets

Texas is Alberta's largest non-energy market in the U.S.

The U.S. Midwest region and California are the major markets for Alberta oil and natural gas. Because these energy exports move by pipeline and cannot be allocated to the state of final destination, they are excluded from the following state export totals. For a breakdown of exports by state including energy commodities refer to Appendix C.

Excluding oil and gas commodities, Texas is Alberta's second largest trade area (excluding the U.S. as a whole) behind China, followed by California, Japan and Pennsylvania. In 2006, deliveries to:

- **Texas,** Alberta's largest U.S. market, climbed by 34.2% to $2.2 billion. Shipments of unsaturated acyclic hydrocarbons more than doubled to $265 million in 2006. The next largest export commodities were polyethylene at $184 million and ethylene polymers at $182 million. Oil and gas field parts and equipment, ranging from pumps to boring machinery, remained a chief export with sales of more than $300 million.
- **California** decreased by 11.3% to $1.6 billion. Styrene deliveries fell by 0.5% to $221 million, boneless beef cuts decreased by 37.4% to $165 million, and OSB shipments declined by 31.1% to $182 million. Polyethylene exports increased by $46 million to $98 million.

- **Pennsylvania** declined by 3.0% to $1.2 billion. Exports of ethylene polymers rose by 8.0% to $596 million and accounted for almost half of non-energy exports. The next largest export commodities were polyethylene at $218 million, and butadiene and propylene at $122 million. Chemical products represented more than three-quarters of the non-energy commodities shipped.
- **Washington** grew strongly by 39.1% to $1.0 billion. Live cattle deliveries increased by $242 million to $393 million and accounted for one-third of non-energy shipments to the state. Other large exports were fuel oils (e.g. diesel) at $91 million, OSB at $63 million and ammonia at $50 million.
- **Illinois** rose by 1.5%, reaching $805 million. Ethylene polymer shipments jumped by 45.2% to $106 million. Other large non-energy imports included styrene at $68 million, polyethylene at $61 million, and diethylene glycol at $46 million.

Alberta's Exports to the U.S. by State, Excluding Oil and Gas Commodities*

	2005 ($'000)	% of Total	2006 ($'000)	% of Total	% Change 2005/2006

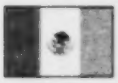
*Excluded commodities include: crude oil, natural gas, propane, butane and other natural gas liquids.

Mexico



"Mexico's average income continues to grow and an ever-expanding number of Mexican consumers can afford imported goods". – Alberta Mexico Office

The Mexican economy expanded by 4.8% in 2006, up from 2.8% in 2005. This was the highest rate of growth since 2000. Mexico's economy is strongly linked to the U.S. economic cycle, and GDP growth in 2006 was driven largely by an upturn in U.S. import demand. The U.S. buys close to 90% of Mexico's exports.

Alberta's exports to Mexico increased by 16.0% to $613 million in 2006. Manufacturing exports grew by 10.6% and accounted for approximately three-fifths of shipments. Primary agricultural commodities were up 22.8% and represented nearly all of the remaining deliveries.

Between 2005 and 2006, canola exports increased by 5.9% to $134 million, wheat exports by 81.2% to $88 million, polyethylene by 58.5% to $72 million and ethylene polymers by 126.7% to $46 million. A large decline was noted for beef exports which decreased by 24.5% to $131 million.

Mexico's share of Alberta's exports was 0.7% in 2006. Alberta accounted for 15.2% of Canada's exports to Mexico, down from 16.4% in 2005. Mexico is Alberta's fourth largest international trade market.

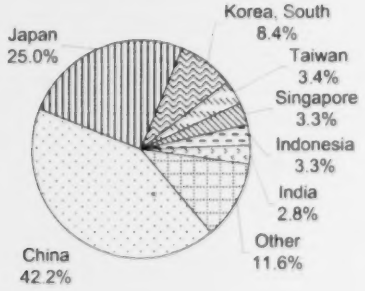
Asia

Asia's share of merchandise exports increases in 2006

Asia is a large and diverse trading area with a population of nearly four billion people. Emerging economies such as China and India had respective growth rates of 11.1% and 9.4%. The 'newly industrialized economies' of South Korea, Taiwan, Hong Kong and Singapore had an average growth rate close to 5.5%. Japan's 'industrialized' economy grew by 2.2%, up from 1.9% in 2005.

Alberta exports to Asia rose by 7.4% to $5.2 billion in 2006 due to increased shipments of coal, nickel, canola, coal, ethylene polymers, wheat and polyethylene. Ethylene glycol was the largest export to the region with sales of $974 million in 2006. Alberta is the sole producer of ethylene glycol in Canada. The next largest exports to the region were nickel, canola, wood pulp and sulphur.

Alberta's Exports to Asia
Total: $5.2 Billion



Exports to China were 7.8% higher because of improved shipments of nickel, ethylene polymers and cellulose acetates. Japan's imports from Alberta fell by 4.0% due to lower pork, lumber and ethylene dichloride. Shipments to India more than quadrupled because of large increases of wheat and electronic equipment.

Alberta's Exports to Asia

	2002 ($'000)	2003 ($'000)	2004 ($'000)	2005 ($'000)	2006 ($'000)

China

"China's economy is close to overheating" – Alberta China Office

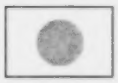
According to Export Development Canada, China has become a growth engine for the world economy. Its economy continues to be spurred by foreign investment, increased domestic consumption and exports. Chinese economic growth over the last five years has averaged about ten percent per year.

China has become an important export market for Alberta exporters of resource-based commodities such as minerals, grains, paper and wood products, and chemicals. Over the last five year, Alberta's exports to China have grown on average by 20% per year. In addition, Alberta accounts for the largest provincial share of Canadian exports to China at 30.2%.

In 2006, Chinese imports of Alberta goods rose by 7.8% from 2005, to $2.2 billion. Manufactured products, totalling $1.8 billion, made up the bulk of these shipments, and chemicals represented almost two-thirds of manufactured deliveries.

China bought $848 million worth of ethylene glycol in 2006, down 4.0% from 2005. Ethylene glycol is primarily used by China's textile and clothing industries and accounted for 39.0% of Alberta's exports to China. Over the same period, nickel shipments increased five-fold to over $293 million, exports of ethylene polymers grew by 27.2% to $137 million, and cellulose acetates sales rose by 72.4% to $85 million. Sulphur deliveries fell by 21.8% to $217 million.

Japan



"Japan's momentum remains robust, with private investment growth supported by strong profits, improved corporate balance sheets, resumption of bank lending, and rising export growth" – Alberta Japan Office

Japan's economy grew by 2.2% in 2006, up from 1.9% recorded in the previous year. It has benefited from improved exports and business investment, despite a weakening in domestic consumption. The Japanese economy is increasingly reliant on Asian export markets, partially offsetting its traditional dependence on the U.S. economy.

Japan's imports from Alberta fell by 4.0% to $1.3 billion. More than half of these imports were related to agricultural commodities and processed food. In 2006, canola sales remained virtually unchanged at $247 million and wood pulp at $145 million. Fresh and frozen pork shipments dropped by 27.2% to $176 million and wheat exports declined marginally by 1.0% to $71 million. These losses were partially offset by gains in coal shipments, up 59.1% to $247 million and forage products (mostly timothy hay), up 13.0% to $85 million.

In 2006, Japan was Alberta's third largest trading partner and accounted for one quarter of exports to Asia. Approximately 14.0% of Canadian exports to Japan came from Alberta. Since 1998, Alberta exports to Japan have hovered around the $1.2 to $1.3 billion level.

South Korea

"Three major Korean corporations have recently opened offices in Alberta" – Alberta South Korea Office

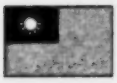
The South Korean economy expanded by 5.0% in 2006. According to the World Bank, growth was supported by stronger private consumption, growth in facility investment and strong exports.

South Korean imports of Alberta merchandise dropped by 21.4% to $432 million in 2006. Manufactured goods represented more than three quarters of deliveries. Sales of manufactured goods declined by 20.5% to $336 million because of lower chemicals (down $70 million) and paper product and wood pulp (down $33 million) shipments.

Shipments of chemical wood pulp fell by 22.6% to $113 million, ethylene glycol dropped by 54.5% to $59 million and wheat decreased sharply by 69.0% to $23 million. Sales of coal increased by 41.0% to $48 million and of nickel by 35.2% to $38 million. These five commodities accounted for almost two-thirds of total exports to South Korea.

Alberta's share of Canadian exports to South Korea slipped from 20.0% in 2005 to 13.6% in 2006. South Korea is Alberta's fifth largest trading partner.

Taiwan



"Energy efficient building products and alternative energy technologies provide opportunities for Alberta firms in Taiwan" – Alberta Taiwan Office

Taiwan's economy expanded by 4.6% in 2006, down from 4.0% in 2005. The main engine of growth for the Taiwanese economy over the last several years has been exports.

Taiwan's imports from Alberta fell by 3.6% from 2005 to $176 million, the lowest level since 1993. This was largely due to lower deliveries of:

- wood pulp, down 43.4% to $12 million;
- nickel, down 32.5% to $15 million; and
- canola oil, down 24.8% to $16 million.

Over the same period, polyethylene increased by $18 million to $21 million and ethylene polymers rose by $10 million to $26 million.

Taiwan used to be a large importer of telecom equipment from Alberta. In 2002 and 2003, Taiwan imported close to $100 million in computer and electronic products. In 2006, computer and electronic products accounted for less than $6 million in manufacturing shipments.

Taiwan was Alberta's eighth largest trading partner in 2006. Alberta's share of Canadian exports to Taiwan has fallen from 21.2% in 2001 to 13.4% in 2006.

Hong Kong

"Alberta and Canada enjoy a good reputation as a clean and safe food supplier" – Alberta Hong Kong Office

Hong Kong's economy grew by 6.9% in 2006, down from 7.5% in 2005. Hong Kong continues to experience strong export growth, increased investment and higher domestic consumption.

Hong Kong imported $112 million worth of Alberta goods in 2006, 13.0% less than in the previous year. Nearly all of the goods that Hong Kong imported in 2006 were manufactured commodities, with 55.8% of these deliveries being processed food products. Imports of Alberta beef fell by 19.2% to $30 million, and hides and skins decreased by 52.0% to $14 million.

Hong Kong was Alberta's 18th largest trading partner in 2006, slipping from 12th place in 2005. The province's share of Canadian exports was 8.5%, down from 11.0% in the previous year.

Europe

Canola oil and related products become Europe's top import from Alberta

In 2006, economies in the 'EURO currency' area grew by 2.8%, up from 1.4% registered in 2005. The European Union economy grew by 3.0% in 2006, compared to the 1.8% growth rate experienced in the previous year. According to the International Monetary Fund (IMF), Germany was the principal 'locomotive' of growth, fuelled by robust export growth and strong investment. Growth in Italy and France was somewhat slower and more dependent on domestic demand. The United Kingdom accelerated in 2006 due to an acceleration of domestic demand, strong investment and solid export performance.

European imports from Alberta increased by 4.8% to $1.3 billion. Higher sales were noted for canola oil, up $97 million to $127 million, and coal, up $17 million from nil in 2005. Shipments of nickel fell by $38 million to $327 million in 2006, and chemical and semi-chemical wood pulp declined by $55 million to $72 million.

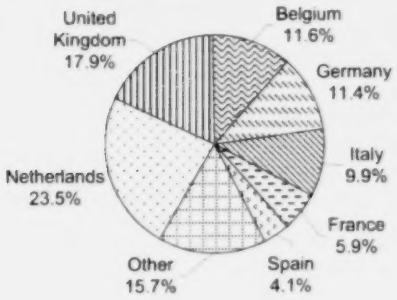
The Netherlands overtook Belgium and the United Kingdom to become Alberta's top European export market in 2006. Shipments to the Netherlands increased strongly by 46.1% to reach $310 million. Exports to the United Kingdom grew by 11.2% to $237 million and deliveries to Belgium declined by 28.4% to $154 million. Sales increased to Germany (up 18.8%), while lower shipments were noted to Italy (down 21.6%) and France (down 12.7%).

The Netherlands accounted for 23.5% of European imports from Alberta, followed by the United Kingdom at 17.9%, Belgium at 11.6%, Germany at 11.4% and Italy at 9.9%. These countries represented almost three-quarters of sales to the region.

Alberta's Exports to Europe
Total: $1.3 Billion



European Union

The European Union (EU) 25 member states have an area of about 4 million km² and approximately 494 million inhabitants. The EU represents the world's largest economy and has the third largest population after China and India. The EU's imports from Alberta totalled $1.2 billion in 2006, up 2.8% from 2005.

Alberta's Exports to the European Union

Bulgaria and Romania became members in 2007. Turkey, Croatia and Macedonia are official candidate countries to enter the European Union; however their potential join dates are uncertain.

United Kingdom

"Interest in Alberta's progress in the field of Nanotechnology is increasing" – Alberta UK Office

The United Kingdom (UK) has outperformed most major European economies over the past five years. In 2006, GDP growth was 2.8%, up from a 13-year low of 1.8% in 2005. Export Development Canada credits the rebound in economic activity in 2006 to strong growth in the service producing sector.

In 2006, Alberta exports to the UK increased by 11.2% from 2005, to $237 million. The UK accounted for 17.9% of Alberta's exports to Europe, while Alberta's share of Canadian exports to the UK was 2.6%.

Nickel and wheat shipments accounted for more than one-quarter of exports to the UK. Nickel shipments fell by 40.1% to $31 million, while wheat deliveries increased by 2.6% to $31 million.

Manufactured goods accounted for 78.9% of Alberta exports to the UK. In 2006, manufacturing exports increased by 7.6%. Computers and electronics, and primary metal products represented the largest component of manufacturing deliveries.

Germany

"Germany's economy is experiencing a strong improvement in its international competitiveness due in large part to wage modernization" – Alberta Germany Office

Germany is the largest economy in Europe and the most populous nation. In 2006, Germany's real GDP grew by 2.8%, three times faster than its growth rate in 2005, primarily due to strong export and investment growth. In the past, it has been one of the slowest growing European economies. The modernization and integration of eastern Germany, labour market rigidities and high unemployment have hindered economic growth since reunification in 1990.

Alberta exported $150 million worth of goods to Germany in 2006, up 18.8% from the previous year. The majority of Alberta exports to Germany were manufactured goods at 93.7%. Manufacturing exports rose by 18.6% due to sharply higher deliveries of processed food products. Canola oil sales increased from $15 million in 2005 to $65 million in 2006.

Germany accounted for 11.4% of Alberta's exports to Europe, and Alberta's share of Canadian exports was 4.3%.

Middle East and North Africa

Oil and gas field equipment dominates exports

The Middle East and North Africa (MENA) is an economically diverse region that includes both the oil-rich economies in the Gulf and countries that are resource-scarce, such as Egypt, Morocco, and Yemen.

The MENA economy grew strongly by approximately 5.7% in 2006, approximately half of a percentage point higher than the previous year's growth rate. According to the World Bank, this growth was "...driven by a combination of factors including: high oil prices, recovery in Europe and changing policies to promote higher investment and reforms".

MENA was Alberta's fourth largest trading region and represented 0.8% of the province's exports. In 2006, exports to MENA jumped by 40.7% from 2005, to $672 million. Wheat exports increased from $5 million in 2005 to $126 million in 2006, and canola sales increased from $4 million to $42 million. These two commodities represented one-quarter of the exports to the region. Over the same period, close to one-third of the remaining exports were related to oil and gas field parts and equipment.

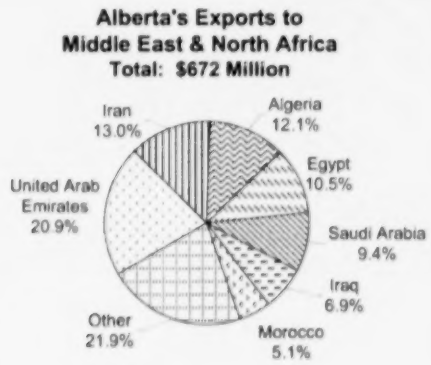
In 2006, exports to:

- The United Arab Emirates nearly doubled to $140 million due to higher canola sales;
- Iran grew by 14.1% to $87 million as wheat shipments increased from zero in 2005 to $36 million;
- Algeria increased sharply by 30.1% to $82 because of large gains in wheat and drilling equipment;
- Egypt almost tripled to $71 million on higher wheat sales;
- Saudi Arabia were up 11.0% to $63 million because of broad based gains for machinery and equipment; and
- Iraq increased from $1 million in 2005 to $46 million mainly as a result of higher wheat sales.



South America

Sharp improvement in exports to South America

The South American economy grew by 4.0% in 2006. Strong global demand for metals and fuels from the Andean region (Colombia, Ecuador, Peru and Venezuela) and for agricultural products from Argentina and Uruguay fuelled this growth. Very strong economic growth was noted for Venezuela (up 10.3%), Argentina (up 8.5%), Peru (up 8.0%) and Uruguay (up 7.0%).

South America imported 19.5% more from Alberta in 2006 than in 2005. Higher imports were noted for sulphur, machinery and especially wheat. Wheat (including durum), sulphur, malt and coal were the region's top imports.

Alberta's Exports to South America

	2002 ($'000)	2003 ($'000)	2004 ($'000)	2005 ($'000)	2006 ($'000)

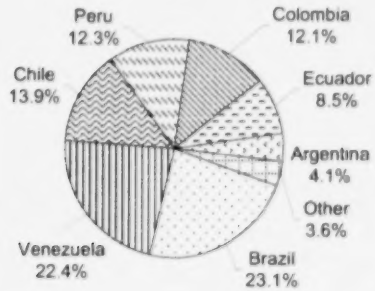
In 2006, exports of Alberta goods to:

- Brazil increased sharply by 71.3% to $94 million on higher sulphur and ethylene polymer deliveries;
- Venezuela rose by 17.9% to $91 million primarily due to improved wheat shipments;
- Chile fell by 1.2% because of lower fuel oil and sulphur sales;
- Peru and Colombia advanced by 4.7% and 13.8%, respectively, as a result of higher wheat sales.

In 2006, imports by South America from Alberta totalled $405 million. This represented 0.5% of Alberta exports. Alberta accounted for 11.7% of Canada's exports to South America.

Alberta's Exports to South America
Total: $405 Million



Central America

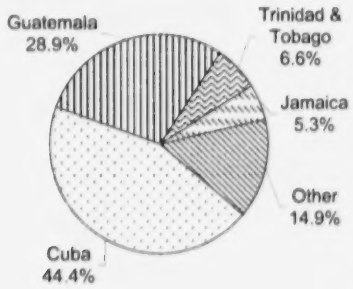
Guatemala remains Alberta's second largest market for refined petroleum products

The Central American region is defined as the area between the southern border of Mexico and the northwest border of Colombia, and includes the Caribbean island nations. According to the IMF, the region is becoming less reliant on exports and more reliant on domestic demand as the main engine of economic growth. GDP grew by 8.3% in the Caribbean island nations, while the remaining Central American countries grew by 5.7%.

Alberta exports to Central America increased by 7.1% to $227 million in 2006. Cuba was Alberta's trading largest partner, accounting for 44.4% exports, followed by Guatemala at 28.9%. Sales to Cuba and Guatemala increased by 24.8% and 2.3%, respectively.

Alberta's top exports to Central America were refined petroleum products, sulphur and wheat. Deliveries of refined petroleum products (e.g. fuel oils) increased by 33.2% and were almost entirely destined for Guatemala. Wheat sales declined due to lower deliveries to Cuba, Jamaica and Guatemala. Sulphur sales were lower because of fewer deliveries to Cuba in 2006.

Alberta's Exports to Central America
Total: $227 Million



Exports to Central America accounted for 0.3% of Alberta's exports, and for 13.7% of Canada's exports to the area.

Commonwealth of Independent States

Energy producers in CIS import more oil and gas field equipment

The Commonwealth of Independent States (CIS) consists of 12 of the 15 former Soviet Republics (the exceptions being Estonia, Latvia and Lithuania). There are eleven member states and one associate member (Georgia). In 2006, the economies of this vast region expanded by approximately 7.6%. Russia, the largest economy in the CIS, grew by 6.7%.

Economic activity in the region expanded at a brisk pace in 2006, reflecting the strong performance of energy exporting countries as well as improved domestic demand and commodity prices across the region.

For the most part, Alberta's top exports to the region were related to oil and gas field equipment parts. Large shipment gains were noted for frozen pork, drilling equipment, tanker trailers, pump parts, filtering and purifying machinery, and drilling equipment parts. At the same time, distilling and rectifying plant sales declined.

Alberta's Exports to the Commonwealth of Independent States

	2002 ($'000)	2003 ($'000)	2004 ($'000)	2005 ($'000)	2006 ($'000)

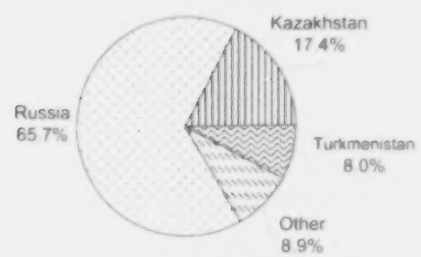
In 2006, Alberta exports to the CIS region grew by 22.9% from 2005, to $217 million. Exports to Russia surged by 54.6% with sharp increases noted for tanker trailer, pork and drilling equipment shipments. Russia accounted for nearly two-thirds of exports to the CIS.

Alberta's Exports to the Commonwealth of Independent States
Total: $217 Million



Alberta accounted for approximately 20.4% of Canada's CIS trade. The CIS represented 0.3% of Alberta's total exports.

Oceania

Exports increase for the sixth consecutive year

Oceania consists of Australia, New Zealand and other South Pacific countries. Australia and New Zealand account for nearly all of the region's economic activity. In 2006, economic growth weakened slightly in Australia and New Zealand, reflecting slower domestic demand and the impact of a severe drought in Australia. Australian economic growth slowed from 2.8% in 2005 to 2.7% in 2006. New Zealand's economy grew by 1.5% in 2006, down from 2.1% recorded in the previous year.

Oceania's imports from Alberta increased by 8.1% to $209 million in 2006, the highest level on record. Sales to the region have been on an upward trend since 2001. Australia and New Zealand dominate this region, capturing 98.9% of Oceania's imports from Alberta. The bulk of these deliveries go to Australia (81.4%), with the remainder going to New Zealand. In 2006, Alberta captured 10.0% of Canadian exports to the region.

Between 2005 and 2006, imports by Australia grew by 21.0% to $170 million, while New Zealand's fell by 24.3% to $37 million. Higher shipments were noted for vacuum and compressor parts, woodpulp and canola. The top sales to Oceania were sulphur and pork.

Alberta's Exports to Oceania
Total: $209 Million

Sub-Saharan Africa

Wheat shipments increase sharply

The Sub-Saharan Africa region is comprised of the African countries that do not border the Mediterranean Sea. In 2006, the region's economy grew by about 5.7% due in large part to increased capital in-flows, rising oil production and improved demand for non-energy related commodities. Economic growth in oil exporting nations was approximately 5.9%, while the advance in GDP in the rest of Sub-Saharan Africa was close to 5.3%.

Sub-Saharan Africa's imports of Alberta goods increased by 17.0% from 2005 to $192 million in 2006. The region was Alberta's smallest trade area in 2006, accounting for 0.2% of merchandise trade. Alberta's share of Canadian merchandise shipments to Sub-Sahara Africa was 13.6%.

The region's largest import from the province was wheat, accounting for 43.7% of exports, followed by sulphur, parts for pumps and parts for drilling equipment. Wheat shipments climbed by 57.6% from 2005, to $83 million.

Alberta exports to South Africa, Sudan and Nigeria represented 62.8% of sales to Sub-Saharan Africa. Exports to South Africa were up 37.4% because of higher wheat and sulphur deliveries. Lower sales of machinery to Sudan led to a 39.0% drop in exports. Higher wheat sales helped push exports to Nigeria up 56.3%.

Total Exports to the U.S.	**43,005,274**	**51,151,654**	**59,060,429**	**72,031,584**	**72,286,819**	**0.4%**

* Exports to individual states can be seriously over- or under-stated, because energy exports, such as crude oil and natural gas, cannot be allocated to the state of final destination. For example, most of the natural gas exports assigned to Washington are destined for California.

Appendix D: Alberta Exports by U.S. State, Excluding Oil/Gas Commodities*

State*	2002 $ '000	2003 $ '000	2004 $ '000	2005 $ '000	2006 $ '000	% Change 2006/2005
Texas	1,417,004	1,321,097	1,315,556	1,617,064	2,169,533	34.2%
California	1,542,597	1,451,436	1,891,991	1,847,867	1,639,222	-11.3%
